All of our puppies will have been recently examined by a licensed veterinarian and will have received a clean bill of health certificate prior to their shipment. Because of this thorough veterinary examination Breeder gives the Buyer a 72 hour health guarantee against life threatening illness. Buyer is responsible make an appointment prior to the Puppy's arrival home with a licensed Veterinarian to have said Puppy examined (at Buyers cost) within 72 hours of Puppy's arrival for the guarantee to be valid. If the Puppy is found to have a life threatening illness that will cause death or if the Puppy dies within the 72 hour guarantee time, the buyer must notify Breeder at once with the following information: Date Puppy was examined; Name, address and phone number of the licensed Veterinarian who examined the Puppy; The diagnosis and all medical records; Autopsy if needed. Also remember DO NOT let your new puppy around strangers or unvaccinated dogs, shoes, veterinary floors, grass areas or anywhere that other dogs have been until after all puppy vaccinations are completed. Remember, your puppy was healthy when it left our care, therefore if your puppy is diagnosed with a life threatening illness after our 72 hour health guarantee it is your responsibility as a pet owner to care for your pet. Because of the nature of a live animal and our inability to control the feeding and care of your Puppy after it has left our care we cannot make any further guarantee's.

All our Puppies are sold as companion pets only. We only want permanent loving pet homes for our Puppies! It is up to the Buyer to decide whether or not to use the Puppy for breeding purposes. Because of the age at which puppies leave our care and the nature of a live animals subject to environmental influences we cannot Guarantee the color, size, breeding or show quality or temperament of the Puppy.

However, please contact us and we will try and help you locate a suitable new home for your Puppy.

Please do not put your puppy on high places including furniture where it may fall and injure itself. Watch small children who may handle your puppy, although children love puppies Pomeranians are very small and could be seriously injured or killed if dropped or over-handled. MAKE SURE your puppy is eating and drinking regularly! Treat your small puppy just as you would an infant child.

Additionally please read and understand the important information page on our website [www.impressivpom.com/important.html](http://www.impressivpom.com/important.html) with valuable information on preventing and treating hypoglycemia which is very common in toy breed dogs. You need to have a tube of Nutra-Cal supplement on hand to prevent hypoglycemia in your new puppy, especially if your puppy is estimated to mature under 6 pounds.
